

# IT's your ideal domain

## Chief Executive

- **Key Strategic Role**
- **Internationally Renowned IT Organisation**

NZ Registry Services (NZRS) is at the heart of New Zealand's internet infrastructure. The organisation manages New Zealand's domain name registry and has a world class reputation for innovation and reliability. NZRS is a relatively small organisation which has responsibility for delivering critical infrastructure. It consistently achieves outstanding customer service ratings and is well positioned to take advantage of the next wave of opportunities in the domain name space.

The Chief Executive is responsible for the leadership and management of NZRS. The key expectations are to:

- Ensure ongoing development and delivery of world class domain name registry services.
- Maintain outstanding relationships with NZRS customers and key stakeholders.
- Lead and represent NZRS to stakeholders and the wider internet and business communities.
- Identify and implement opportunities for business development and service improvement.
- Contribute to the overall strategic direction of the organisation.

To be successful in your application for this role you will have:

- A record of achievement at a senior level in a commercial environment with demonstrated success at business development and growth.
- Strong strategic management and leadership skills.
- Excellent analytical skills and sound judgement.
- A sound understanding of IT practices, processes and standards.
- Highly developed verbal and written communication skills.

Experience in managing critical infrastructure would be an advantage.

The remuneration for this position is competitive and reflects the importance of the role. If you have questions about the role or the organisation, please contact Doug Martin on 04 499 6130.

**Applications should be made to Doug Martin, Martin Jenkins and Associates, PO Box 5256, Wellington or email [doug@martinjenkins.co.nz](mailto:doug@martinjenkins.co.nz)**

**Applications close 5pm Wednesday, 3 December 2008.**
