

SRS Scheduled Maintenance

Sunday 25th July 2010, 07:00 - 09:00 NZST

SRS Outage

There will be an outage to the SRS on Sunday, 25th July 2010, 7:00 - 9:00 am NZST to migrate the Release version 5.01 of the SRS software and also to allow maintenance work to be carried out.

This release includes a number of minor SRS UI and general SRS bug fixes following the 5.0 release from 2 weeks ago.

Registrar Impact

All the changes are transparent and should have NO impact on registrar systems.

Protocol

The protocol has changed in this release but should have no impact on registrar systems. See the release summary below.

Summary of the new release of SRS (5.01)
